

JORDAN RIVERA

Software Engineer · Riverton, OR · jordan.rivera@example.com

SUMMARY

Software engineer with 4 years of experience building web applications and internal tools. Comfortable across the stack, with a focus on React front-ends and Node.js services.

EXPERIENCE

Software Engineer — Brightleaf Logistics (fictional), Riverton, OR

March 2022 – Present

- Built and maintained React and TypeScript dashboards used by the operations team to track shipments.
- Developed REST APIs in Node.js and Express backed by PostgreSQL.
- Reduced dashboard load time by 40% by introducing pagination and query indexing.
- Wrote unit tests with Jest and participated in code reviews for a team of 6 engineers.
- Assisted with migrating the deployment pipeline from Jenkins to GitHub Actions.

Junior Web Developer — Maple Street Media (fictional), Riverton, OR

June 2020 – February 2022

- Implemented responsive marketing pages using HTML, CSS, and JavaScript.
- Collaborated with designers to convert Figma mockups into reusable UI components.
- Maintained a WordPress site and fixed accessibility issues reported by users.

PROJECTS

Trailhead Tracker — personal project

- Built a hiking log web app with Next.js and Tailwind CSS, deployed on Vercel.

EDUCATION

B.S. in Computer Science — Cascade Valley University (fictional), 2020
